AF 09680 (January 2005)
UNITED STATES AIR FORCE CCAFS/PAFB

SECTION 09680

CARPET
01/05

PART 1 GENERAL

NOTE: This specification is to provide inserts into
NASA Section 09680 CARPET calling out affirmative
procurement requirements for recycled materials in
carpet.

1.1 SUBMITTALS

NOTE: If SD-03 Product Data already exist in the
Submittal Article, add the submittal items below to
the end of SD-03 Product Data.

If SD-03 Product Data does not exist in the
Submittal Article, insert the entire paragraph below
including SD-03 Product Data.

SD-03 Product Data

Manufacturer's data shall be submitted indicating percentage of
recycle material in carpet to verify affirmative procurement
compliance.

Total weight and volume quantities of carpet with recycle material
shall be submitted.

PART 2 PRODUCTS

NOTE: Insert the following after the second
paragraph in Subpart 2.1 to describe affirmative
procurement requirements.

2.1 FACE CARPET MATERIALS

Face carpet material is one of the materials listed in the EPA's
Comprehensive Procurement Guidelines (CPG) (<http://www.epa.gov/cpg/>).

EPA's recommended Recovered Materials Content Levels for carpet.

Product	Material	Percent Of Post Consumer Materials	Percent Of Total Recovered Materials
Polyester Carpet faced Fiber	PET	25 - 100	25 - 100

NOTE: EPA recommends that, based on the recovered materials content levels shown in the table above, procuring agencies establish minimum content standards for use in purchasing polyester carpet for light- and moderate-wear applications. This recommendation does not include polyester carpet for use in heavy-wear or severe-wear applications; however, procuring agencies are encouraged to evaluate the suitability of polyester carpet in these applications. These recommendations do not preclude a procuring agency from purchasing carpet made of other materials such as nylon, wool, or polypropylene.

For informational purposes, a list of known sources for face carpet materials using recycled material is provided in the EPA/CPG Supplier database at http://www.ergweb2.com/cpg4review/user/cpg_search.cfm.

Note that the Contractor is not limited to these sources. A product meeting CPG recycle requirements from other sources may be submitted for the Government's approval.

Contractor shall submit recycled material content data for carpet indicating compliance with affirmative procurement.

Contractor shall submit total weight and volume quantities of carpet with recycle material.
